March and April have been very busy for us, even with all the emergency calls, members also attended a vehicle rescue class that was in combination with Elysburg and Overlook Fire Companies. This class utilized all rescue equipment that each Company has. Members also attended a LifeFlight safety class at Treverton Fire Company. This class informed members how to set up a landing zone, load a patient into and operate safely around the helicopter. Members also attended a Firefighter Survival Class held at Elysburg Fire Company and attended a HazMat Awareness Class held at Stonington Fire Company. In all, the Members of Stonington Fire Company for March and April had a total of 149 manhours in training.

Respectfully Submitted,

George H. Wolfe Jr., President
Stonington Vol. Fire Co.
