

# STONINGTON VOLUNTEER FIRE COMPANY

2732 STATE ROUTE 61

SUNBURY, PA 17801

---

The following is a report of the activities of the Stonington Volunteer Fire Company for September 2008.

Our fire company responded to 5 emergency calls.

This was very good. The low number of emergencies reduced the risk to our responders while responding to the station, responding to the emergency and while at the scene.

There were 2 calls in Shamokin Township, 2 calls in Rockefeller Township and 1 call in Ralpho Township.

4-MVA'S, 1-Tree in the road.

I would like to take this opportunity to remind all Township residents of the importance of having reflective address signs. While traveling through the Township, I've noticed there are still a number of residences that do not have a reflective address sign. This helps Fire, EMS and Police to locate your residence much quicker in case of an emergency. This is doubly important at night when locating a residence becomes even harder. Please install a reflective address sign.
